

13

2-22-01

2 yosphilized cards with a mixture of 4E10 and 13G3 monoclonal antibodies for the Anti A and wheat germ lectin for Anti B were made 5-15-00. They were tested 2-22-01 with A cat Spiff, B cat Houdini, and AB cat Cassie whole blood. These cards are 9 months old and still work well. The cards were stored at refrigerator temperature of 4°C.
